Challenge of the Holy Quran

The Holy Quran has been challenging since fourteen hundred years to mankind and Jinn to create a Surah (at least in ten words) like the Holy Quran if they have doubt that the Holy Quran is not the words of Allah the Creator. If they did so then it will be proof that the Holy Quran is surely not the words of Almighty Allah and has created by Muhammad (peace be upon him) and then it will also be proof that the Religion Islam is not the right and truthful religion because its base is Holy Quran.

But if they did not do so then it will be proof that the Holy Quran is certainly words of Almighty Allah and the religion Islam is certainly the religion of Allah the Creator because this Religion's base is holy Quran as it is mentioned above and then it will be necessary for disbelievers to faith on Holy Quran and on what said in it. It means that they enter in religion Islam completely unless they will enter in fire prepared for disbelievers whose fuel is of men and stones.

It is very wonderful that more than fourteen hundred years ago and there is no one in my knowledge who created a Surah like the Holy Quran while the holy book is in Arabic language and there were millions persons who knew this language very well but at this time also there are millions experts of Arabic language but they do not have ability to answer this challenge. Because this challenge is really from Almighty Allah whose knowledge is unlimited and the knowledge of any one from mankind or jinn is limited then how can any one answer this challenge?

So it has proved that the Holy Quran is surely the verses of Allah the Creator. What I have said above about the Holy Quran and its challenge is not from mine but it is in these verses of the Holy Quran. Now you can study it with details.

Allah says in Surah no 17 Verse No 88

"Say: if the entire humans and jinns join together to produce anything like this Quran, they will not (be able to) come up with anything like it, even if they assist one another."

This verse challenges mankind and jinn to produce a book like the Holy Quran. But nobody could do so as yet.

Allah says in Surah no 11 Verse No 13, 14

"Do they say that he has fabricated it? Say (to them), then bring ten Suras like this, fabricated. And call whomsoever you can, other than Allah, if you are true. So, if they do

not respond to your call, then be assured that it has been sent down with the knowledge of Allah and that there is no God but He. So, do you submit?"

These verses challenge mankind, jinn but other gods also (if they are) beside Allah to bring ten Surah fabricated only like the Holy Quran if they are truthful in their saying that the Holy Quran has fabricated from the messenger Muhammad (peace be upon him). But if they could not do so then it will be proof that there is no God beside Allah surely. Because this challenge is to all Gods also if they are beside Allah and it will be proof also that the Holy Quran is not fabricated from any one but it is surely verses of Almighty Allah and then they should enter in religion Islam and become a truthful Muslim.

It is very sad that the non-Muslims say about the Holy Quran that it is not the verses of Allah but they do not bring any proof on their saying and if Allah calls them to answer the challenge of Holy Quran they do not accept this challenge too?

Allah says in Surah no.10 Verse No 38.

"Or, do they say: that he has made it up? Say, then bring a Surah like this, and call whomsoever you can beside Allah, if you are true."

In this verse it is a challenge to everyone to bring a Surah only like the Holy Quran if they have doubt that the Holy Quran is not the verses of Allah but they could not do so as yet.

Allah says in Surah No 2 Verse No 23, 24

"And if you are in doubt about what We have revealed to Our servant, (Muhammad) then bring a Surah similar to this, and do call your supporters other than Allah, if you are true. But if you do not-and you will never be able to-then guard yourselves against the fire, the fuel of which will be men and stones. It has been prepared for disbelievers."

In these verses also is the challenge to every one beside Allah to bring a Surah only if the disbelievers have doubt about the Holy Quran which was revealed on holy prophet Muhammad son of Abdullah (peace be upon him). There is also the challenge also that they can not bring a Surah and there is threat to them also that they will enter fire if they do not accept the Holy Quran as the verses of Allah.

Can You Answer this Challenge?

My non-Muslim brothers and sisters, you have studied the challenge of the Holy Quran in the above verses. So if you want to answer this challenge then produce a Surah like

the Holy Quran at least in ten words only in Arabic language without copying the Holy Quran in words, meanings and knowledge and announce on the international forum that you have answered the challenge of the Holy Quran. The neutral and expert scholars of Arabic language in the world will check your produced Surah that it is like the Holy Quran or not.

If they will certify to you that your produced Surah is surely like the Holy Quran then it will be proof that the Holy Quran is not the verses of Allah. And has it been fabricated from any one?

But if you could not do so and it is perfect that you will not do so then it will be proof that the Holy Quran is certainly the verses of Allah greatest and then it will be necessary for you to accept the Holy Quran as the verses of Almighty Allah and enter in the religion Islam. Because the Holy Quran says that the religion Islam is the only right religion in sight of Allah.

An Advice to Non-Muslims

But my advice for you that do not waste your time and money in bring a Surah like the Holy Quran because fourteen hundred years ago and there is no body who have answered the challenge of Holy Quran and succeeded in it .So how will you succeed in being a Surah like the Holy Quran? But there is proof in the history of Arabic language that some expert and famous poets of Arabic language were strived to create a Surah like the holy Quran but they failed in it and accepted that this holy book is not fabricated but it is surely the verses of Almighty Allah. So do not waste your time in creating a Surah like the Holy Quran but faith in it and enter in Islam.

An Another Greatest Proof on Being the Holy Quran Verses of Allah Almighty

According to my research there are millions of protected dead bodies of true Muslims and Martyrs in their graves under the earth in fresh and sleeping conditions like the live persons without using any chemical on their dead bodies for centuries and years. So I can say that these protected dead bodies are second proof of being the holy Quran verses of Almighty Allah. Because they were Muslims believed on Holy Quran and follower to it so Allah greatest satisfied from them and ordered to earth to protect their dead bodies.

Because it is sure that the earth itself has no capacity to protect the dead body of mankind as we know that there is no dead body of Christians, Jews and other disbelievers of Holy Quran. So it is certainly by the order of Almighty Allah and his pleasure. So we can say that the holy Quran is the verses of Allah the Creator. I think if the holy Quran is not the verses of Allah surely but it was fabricated from any one then Allah did not satisfy from them and did not order the earth to protect their dead bodies as we see that the dead bodies of disbelievers and bad character Muslims have not protected under the earth because Allah creator is not satisfy from the non-Muslims because they are disbelievers of Holy Quran and from a majority of Muslims also because they are bad characters.

Please Use Your Common Sense Too

Please use your common sense also to find out the reality that if the holy Quran is not the verses of Allah then why has he protected the dead bodies of those who are followers of this book because it is as respect for them and as a miracle in the sight of the public? So if they were followers of a wrong and fabricated book he should disgrace them and be answered to the challenge of this book that has been coming since fourteen hundred years? But until this time nothing happened according to my knowledge and study? So I think that this holy book is surely the verses of Almighty Allah. I am going to mention a very wonderful foretelling of the Holy Quran that will prove certainly that this book is surely the verses of Allah the Creator. That foretelling is that it was said in this book before fourteen hundred years that those Muslims who will be slain in the way of Allah they will not be dead but they will be alive and they will be provided the well food from Allah greatest but the mankind would not understand it that how they are like alive person and how they provided the food? That foretelling is described in holy Quran

Surah no 2 verse no 154

“And do not say of those who are slain in the way of Allah that they are dead. Instead, they are alive, but you do not perceive.”

And in Surah no 3 verse no 169

“And think not of those, who are slain in the way of Allah, as dead, rather, they are alive with their lord, well provided.”

The meaning of this verse is that Allah has prohibited mankind to say about those Martyrs who are slain in the way of Allah that they are dead because they are alive but

mankind can not perceive how they are alive? And they are well provided with food. I think that in these verses there are three foretells. The first is that they are alive. The second is that they are well provided the food from their Allah and the third is that we can not perceive how they are alive?

Now we discuss on those Martyrs who are slain in the way of Allah that we find that all three foretelling in their protected dead bodies without using any chemical on their dead bodies in their graves under the earth in fresh and sleeping condition for centuries and years. Certainly I found that three foretelling because the dead bodies of them are alive and the proof on it is that their dead bodies are fresh as a live person, their blood of cut or injured is also fresh but the blood from one dead body of an companion of holy prophet Muhammad (peace be upon him) began to blow when his hand was removed from hi cut. So we can say that they are alive. They are well provided with food because without it when our body can not be fresh, healthy and alive then how are they fresh, alive and protected in the graves under the earth for centuries and years? So we should accept that they are surely provided the food from their Lord.

And the third foretelling is that we can not perceive how they are alive? This is right also because we see all signs of life but can not perceive it obviously. Surely I do not tell a lie and I can prove what I have said above about the protected dead bodies. If I could not prove that it would be allowed for every one to punish me hard and disgrace me on the electronic and print media.

My human brothers and sisters now you have studied the foretelling of the Islamic religious book the holy Quran whiff has been coming since fourteen hundred years and you have found 200% truth witness too. So it proved that the holy Quran is the verses of Almighty Allah and so I request you to use your common sense and research what I have said that you can satisfy yourselves about the holy Quran that it is the surely the verses of ALLAH AND ENTER THE RELIGION ISLAM THAT YOU CAN SUCCEED HEREAFTER TOO.

This is NOT a Magic or Magical Tricks or Sorcery

This is not a magic or magical tricks or sorcery that you can reject or refuse what I have said above about the millions protected dead bodies of Muslim martyrs and other true Muslims in their graves under the earth since centuries and years but it is a reality and truthful event because there are many ways to verify that the dead bodies are surely protected or no. The first way is to take a machine which is made for seeing under the earth to 10 fit and go to their graves by machine which is made for seeing in the earth

that in these graves dead bodies are protected or not? Similarly check all the cemeteries of your country and count these protected dead bodies and then go to any second country in the world and do so as I have mentioned above. After finishing the checking in the second country, go to the third and so. By this way check all Muslim cemeteries in all countries in the world. After completing this work you will find that what I have said is right and truthful reality.

The second way for this purpose is to go to all the cemeteries of Muslims of all countries in the world and meet the sextons of all Muslim cemeteries and ask them how much you know about the protected dead bodies of Muslims and their events? What they say, record it and count it and do so in all countries of the world. By this way you can also be satisfied with what I have said.

The third way is that you contact the foreign ministry of the Saudi Arabia government and ask from them about the protected dead bodies of Muslim martyrs and other muslims who will inform you about it because they have records about it.

The fourth way for this purpose is that come in a group with media I will take you those thousands persons who have seen the protected dead bodies in their graves by their eyes and they will describe in front of you what they have seen that you can satisfy about what I have said because they all will not tell a lie.

The fifth way is that come to me with a group I will show you protected dead bodies of Muslims by opening their grave but there are two steps the first is you all will be Muslims and second is that you will inform the all mankind by electronic and print media and by the international forum about your eye witnesses and about your entering in religion Islam.

The fifth way for this purpose is to study the events of protected dead bodies of Muslims with an open mind and heart and request to your god that he guide you about these events. Are these right or wrong? You will feel that these events are surely right.

The sixth way of this purpose is that it is known among the people that there many scholars and conjurers in all religions who have some knowledge by which they can confirm you about what I have said about the millions protected dead bodies of those who are slain in the way of Allah and other Muslims in their graves under the earth without use any chemical on their dead bodies since centuries and years.

There is NO Protected Dead Body of Jews and Christians

According to my research and knowledge in the light of the holy Quran there is no any dead body protected of Jews and Christians and other religious men and women who hide the dead bodies in the graves under the earth without use any chemical on their dead bodies in fresh and sleeping condition since coming the religion Islam completely or since the time of last holy prophet of Allah Muhammad son of Abdullah before the fourteen hundred years to yet? If yes please inform me I will be very thankful for you. Yes there are some dead bodies of them but it has used the chemical on their dead bodies and after that also they are not in fresh and sleeping condition like alive persons as we have said about the dead bodies of Muslims.

There is a question in my heart and mind neutrally that religion Jews and Christians and the other all religions (in which they hide their dead bodies like the Muslims) if are rightful religions and loved to Allah greatest (who is only one and creator of the all universe) then why the any dead body of its followers, has protected in earth without use any chemical on his dead body like the religion Islam that there are at least millions protected dead bodies of it's true followers called Muslims as I have mentioned above?

Is there not any follower who is the lovely person to Allah greatest since the coming religion Islam to yet? I think that these religions are really wrong and canceled so its followers are also not the lovely persons to the Almighty Allah. Therefore there is no protected dead body of them in the earth because (I have proved it above) that this protection is not by the earth but it is by the powerful Allah who's earth obeys, sky and all things between them. So I request to ask your religious scholars why there is no protected dead body from you and why there are millions protected dead bodies of Muslims if you have faith in a life hereafter also and want to succeed in it?

There is NO Protected Dead Body of Hindus

According to my research and knowledge there is no protected dead body of Hindu religion and those who burn the dead body in the fire until the dead body is reduced or spilled in the water. It has never happened since coming to the religion Islam that they burned their dead bodies but any dead body could not burn or they spilled their dead bodies in the river or sea and any dead body could not decay and became protected forever?

But I have a record of a Hindu when his relatives began to burn his dead body in the fire he could not burn. Then the Muslims of his village said that it is possible that he may be a Muslim therefore he could not burn in fire so let us research about him.

They went to his home to see the signs of any Islamic signs in his home. They found a carpet for saying prayers on and a string of beads which a Muslim for praising the Allah greatest. Then the Muslims announced that this was not a Hindu really but he was a Muslim because he prayed to the God according to the religion Islam but he did not open it so his relatives could not know it.

Then the Muslims demanded from His Hindu relatives to allow them to hide him in the grave according to the teaching of the religion Islam. They agreed and they did so.

About this event, a Muslim named Hayder in CPLC head office in Nazimabad Karachi in front of a Muslim named Mahmood .He said to me that he can prove it in a village named Gujjar in Rawalpindi Pakistan. This event proves that the true Muslim can not burn in fire also by the order of Allah Almighty. There is not only one event that I depend on but it is for example. At last I request from Hindu brothers and sisters that they ask to their Hindu religious scholars that why the any dead body of Hindu protected in the fire or water while there are millions protected dead bodies of Muslim Martyrs and true Muslims in their graves under the earth without use any chemical on their dead bodies in fresh and sleeping condition since centuries and years? I think that their scholars would not answer this question because what I have said is a reality. If they could not answer then they would understand that the religion Hindu is wrong and the religion Islam is only right so it is necessary for them to enter in this religion so that they can succeed in the life hereafter.

Also I request from them that if they have any doubt on my research and what I have said above then they can reject my saying and proof by showing any dead body of Hindu protected. If they could not show any Hindu protected dead body and they never do so then they should announce about it among the Hindu people too that they can also enter in Islam.

What Will You Say About Those Muslims?

What will you say about those Muslims whose dead bodies have been protected in their graves under the earth in fresh and sleeping conditions without using any chemical on their dead bodies for centuries and years whether they are successful in this world and hereafter also or not? I think that your answer will be yes. Because it is perfect that the earth has no capacity to protect the dead bodies as we see that there are a majority of corrupt Muslims and non-Muslims also whose dead bodies have not protected under the Earth and their dead bodies start to decay in some weeks only.

So Allah is the greatest protector of the dead bodies of some Muslims under the Earth. It is really as a miracle for the non-Muslims and other corrupt Muslims that they can learn a lesson from their protected dead bodies if they want and these events are proof also that Allah is pleased and satisfied from their faith on holy Quran and good acts according to the religion Islam and protection of their dead bodies is a sign for their realities and friends that they are successful in this world and will be successful hereafter too that they can feel pleasure and happiness and do not think about them that how they will be after the death in their second life? Because when Allah protects their dead bodies in this world while it is an impossible thing to do, we can hope that He will help them in another world also and He will not punish them.

Is it Enough for Wise Men and Women?

I think that it is enough for wise men and women to know that what religion is right and what is canceled by the greatest Allah or changed by the mankind because when it has proved above by the challenge of holy Quran and protected dead bodies of millions of true Muslims that holy Quran is surely verses of Allah the greatest. Then we should ask to this holy book which religion is right and loved by Allah the Creator? And then we should believe in it and pass our lives according to it. So when we asked to this holy book about it then it said in

Surah no 3 verse no 19

“Truly, the (recognized) religion in the sight of Allah is Islam.”

So it is cleared that the religion Islam is only the rightful religion to Almighty Allah but the holy Quran declared also in another verse that the except religion Islam there is no any religion acceptable in the sight of Allah the creator and all those who will follow the religion except they will lose them hereafter in second life which begins after the close eyes forever. Please study the

Surah no 3 verse no 85 no 85

“Whoever seeks a faith other than Islam, it will never be acceptable from him, and he, in the hereafter, will be among the losers.”

Also there is not any example in world history that any dead body of any follower of any religion except Islam has been protected under the earth since centuries. Which could be a practical proof that this religion is right? If any follower of any religion accepts this challenge please inform us by our Email or electronic or print media and proof of the dead body in front of the public on an international forum.

But I think that no one will accept this challenge because according to the holy Quran after Islam all other religions have been canceled and Allah has announced that he is not happy from any religion except Islam. So no dead body of a disbeliever can be protected under the earth without using any chemical on their dead body.

Because it has confirmed that the earth has no capacity to protect any dead body in her and it is only by the pleasure of Allah and his order. So Allah will not protect any dead body of disbelievers because he is angry at them and their religions.

The Earth is a Best Laboratory for Test the Right or Canceled Religion

The Earth is the best laboratory for testing the right or canceled religion from various religions in the world. Because there is no other reliable and sure way to know which religion is right? If you will say that we should ask about it to the all religious and holy books in world I will say that this way is not acceptable to the all mankind because it is perfect that all person will say then that his religious book is right and other religious books are wrong as we see at this time in the world for example Muslim says that the Holy Quran is the book of Allah and this book is right only and other religious books, Torah for Jews, Injeel for Christians and other books were changed by the mankind so that all are canceled as it has mentioned in Holy Quran. Similarly the Christian, Jews and Hindu etc also have doubts about the Holy Quran that this is surely the verse of Almighty Allah or fabricated by any one? I will not go into details at this time .I think you have understood what I want to say that everyone will support his religious book and will reject other books. In this situation, how can we ask the religious books about the right or canceled religion in the world and how the people will accept this way and how they will satisfy too? So this way is not reliable for testing the right religion.

The best, reliable, and undeniable test of all religions is that since the coming religion Islam completely means for fourteen hundred years until this time we will research about the protected dead bodies (without using any chemical on them) of followers from all religions. Which religions followers' dead bodies will be protected will be proof that this religion is right and lovely to Allah and which religions followers' dead bodies will be not protected it will be proof that this religion is not right to Almighty Allah.

There are some religions in which the order is to hide the dead bodies of its followers in the graves under the earth and that is the religions of Jew, Christian, Islam and others. When we researched neutrally we found that there are at least millions protected dead bodies in their graves under the earth without used any chemical on their dead bodies

since fourteen years of followers of religion Islam and there is no any protected dead bodies without used any chemical on their dead bodies of followers of the religion Jew, Christian and others.

So it proved that the religion Islam is a rightful religion to the Allah creator and the religions Jew, Christian and others are canceled religions to Allah creator. This protection is by the pleasure of Almighty Allah and his order to the earth. If we will say that this protection is by the Allah Almighty then it will be proof to being the religion Islam lovely to Almighty Allah and if you will say that this protection is by the earth then it will be proof also that the religion Islam is rightful religion, because the earth protected its followers dead bodies under it. We can not reject this proof because the earth is not the enemy of any religion or partisan but it is as a neutral judge, therefore it did not protect the dead bodies of bad character Muslims but it let them decay.

There are some religions in which it is in order to burn the dead bodies of its followers in the fire until they are reduced or order to spill them in the river or sea and that is the religion Hindu and others. When we researched we did not find any dead body of its followers protected without using any chemical on their dead bodies and not any dead body who could not burn in the fire or could not decay in the water. So it proved that these religions are also canceled and not the lovely religion to Allah who has created this universe. If the Hindu says that if they will hide their dead bodies in the graves under the earth they will be also protected then it is allow for them also to do so that they choose the top hundred Hindus scholars and give their complete name, father names, complete address, and their contact mobile or phone no to the United Nations that they can watch them, and after their death they can check their dead bodies protected in earth or no? After three months only the team of the United Nations will check their dead bodies. If they will find their dead bodies protected then it will be proof that Hindu religion is also the rightful religion and then we will follow to this religion also, but we will announce by the electronic and print media on the international forum that the Hindu religion is right, and I think it will be very useful for this religion. But if the team of the United Nations could not find any protected dead body of them, then it will be accepted from the Hindu followers on the international forum that the Hindu religion is surely the canceled religion to Allah the Creator.

We Muslims also will choose the hundred top scholars of us and we will give their names, father names, complete address, and their contact mobile or phone no to the United Nations that they can watch them, and after their death (after three months only) they can check their dead bodies that they are protected or no?

(It is a challenge from me that they will surely find some of their dead bodies protected). If they could not find any dead body protected then it will be proof that the religion Islam is not the rightful religion and if they will find some dead bodies of them protected then it will be proof also that this religion is surely the rightful religion to Allah creator.

I invite everyone to test their religion

There is a question: why do I invite everyone to test their religion? The answer to this question is that my faith is in light of holy Quran and mankind history that all mankind is indeed from a first man Adam and his wife Hawa (peace be upon them) . So mankind by this way is like brothers and sisters among them. This is also a fact also that there is another world after the death of mankind. The proof of that other world is that we see in our sleeping condition our Father, Mother, friends and other persons that are talking to us, guiding us while they have died? Some of them say to us that they are in pleasure and some of them say to us that they are in problems. So if there is no other world then from whom we meet and talk in our sleeping conditions while they have died? Can we say that it is false and has no reality? No, we can not say that because it is truthful and undeniable reality. So there is a world also except this world where we live. When it is clear that there are two worlds. The pleasure and success in both worlds is by the pleasure of Allah, and his pleasure indeed will be for those whose faith and acts will be according to the guidance of Allah.

I want pleasure and success in both worlds for me and for all mankind because they are my brothers and sisters as I have described above. I have researched that it will be possible when we will follow the religion which is the right and loved to Allah.

When I researched I found that the religion Islam only is the right and truthful religion to Allah. So it is my duty that I inform my other brothers and sisters about my research so that they can also succeed in this world and after their death too.

So I invite mankind to check their religion and I have described the best and truthful way for checking also if they do not believe my research.

Which religion is right and loved to Allah

When it was cleared by the undeniable proof that the holy Quran is surely verses of Allah then I asked the holy Quran which religion is right and loved to Allah creator among the various religions in the world. The holy Quran answered this question in

Surah no 3 verse no 19:

“Truly, the (recognized) religion in the sight of Allah is Islam”.

In this verse Allah has cleared that the religion Islam is rightful and loved religion to Allah. But in another verse Allah has rejected all religions also and threatened to those persons who seek other religions except religion Islam as it said in

Surah no 3 verse no 85:

“And whoever seeks a faith other than Islam, it will never be accepted from him, and he, in the hereafter, will be among the losers.”

By this verse all religions have been canceled except Islam. So we can say certainly that religion Islam is only the right and truthful religion to Almighty Allah.

Why have the religions before the Islam been canceled?

According to my research and thinking, the light of the holy Quran teaches all religions before the Islam has changed by mankind after passing thousands years because Allah has not promised to protect those religions forever and was for a short and limited period only.

Therefore there are many messengers of Allah from the first man and first prophet Adam (peace be upon him) to prophet messiah son of Mary, and there are many differences among their religious teachings. The reason for these differences is that orders of Allah and his guidance had reached the prophets slowly in different parts.

So when the religion Islam was completed by the last prophet Muhammad (peace be upon him) Allah canceled all those religions before it. The proof of this is in

Surah no 3 verse no 85

“Whoever seeks a faith other than Islam, it will never be acceptable from him, and he, in the hereafter, will be among the losers.”

And the proof that all religions before the Islam has changed by the Mankind as saying of Allah in

Surah no 5 verse no 75

“The Masih, son of Maryam, is no more than a messenger. There have been Messengers before him. His mother was very truthful. Both of them used to eat food. Look how we

explain signs to them, then see how far they are turned away.”

This verse only is the greatest and undeniable proof against all changed or canceled religions because in all religions except Islam is the concept of worshiping mankind and it is wrong because the worship should be only for Allah not for mankind but for any prophet too. Because they are from us (although they are saint righteous) and the proof of it is that they need to eat food as it said about the messenger Masih (peace be upon him) who need to eat food. So all religions are canceled because in all is worshiping mankind not for Almighty Allah who created this universe.

And in this verse is proof also that Masih is a messenger only as other messengers. Because he and his mother Maryam used to eat earthly food, they can not be God or part of God because those who will eat food they can not be God. Because it is sure that Allah has no need to eat earthly food.

THE PURPOSE OF EAT EARTHLY FOOD

Because the purpose of eating food is enjoyment or to feed the body (which is based on blood, bones, flesh and soul) and Allah is free from all these things. So we can say that the Masih is not a God or son of God as he had the body of a normal human being and as he used to eat food. So we have known that the religion Christians has changed by mankind and therefore it has been canceled by Almighty Allah. Because in this religion is the concept that Masih son of Maryam is Allah or son of Allah. The messenger Masih and his mother Maryam both used to eat food. So the Masih can not be God or son of God because it is surely that the Allah does not need to eat earthly food .The proof of it is that He has not the body like mankind as it has mentioned in above and the Holy Quran says also in

Surah no 6 verse no 14:

“say, would I take as guardian someone other than Allah Who is the creator of the heavens and the earth, and Who feeds others, and is not fed by anyone?”

In this verse clearly Allah has said that He does not need to eat earthly food. So it is clear that the religion Christians has been changed by mankind so it was canceled by the Almighty Allah and therefore Allah is not Happy from those who follow this religion as it has mentioned in the above verse. According to my knowledge and research in all religions before the Islam is concept of worshiping mankind or demons which is wrong and very bad to Allah. Please study the Surah no 5 verse no 75 :

“and think. You will see that Allah how is angry on those who has faith on worship of mankind or other things?”

So Allah has canceled all religions before the Islam and ordered mankind and demons to follow this religion Islam only forever. Allah says in

Surah no 5 verse no 17 :

“Certainly, infidels are those who say : Allah is Masih, son of Maryam , Say : who then has the power to do anything against Allah, if he wills to eliminate the Masih son of Maryam and his mother and all those on earth?”

This verse clearly has rejected the worshiping of the messenger Masih son of Maryam.

The saint Masih and his saintly mother in Holy Quran

There is no doubt that the son of Maryam messenger Masih was a very powerful saint by the mercy of God and his permission. I would like to mention some verses of the Holy Quran where you can judge how the holy Quran respects him and his power. But after it all he was not a God or son of God but He was a messenger only like Noah and Abraham.

Allah says in

Surah 3 verse no 45 , 46 :

(remember the time) when the angels said : O Maryam, Allah gives you the good news of a word from Him , whose name is Masih, Isa , the son of Maryam , a man of status in this world and in the hereafter, and one of those who are near (to Allah).”

He shall speak to people while (he is still) in the cradle, and also later when he is in mature age, and he shall be one of the righteous.

Allah says in

Surah no 5 verse no 110 :

“(call to mind the time) when Allah will say : o Isa, son of Maryam, remember my blessing on you and upon your mother , when I supported you with the holy spirit you spoke to people when you were still in the cradle and when you grew to middle age. I taught you the book and wisdom, the Torah, and the Injil. You created from clay something in the shape of a bird by my leave, then you blew on it, and it became a bird by my leave. And you cured those born blind and lepers by my leave. And you raised the dead body by my leave. and I kept away the children of Israel from (harming) you when you came to them with clear signs, and the disbelievers among them said, This is nothing but a clear magic.”

In above verses you have studied the many dads of messenger Masih son of Maryam but its all were by the permission of God. So how can say that he was a god or part of God? If you accept that the Holy Quran is really verses of God Almighty then you will accept also what it said in above and if you will not accept the Holy Quran as the verses of God then read the challenge of the Holy Quran in above and answer its challenge please.

Religion of Jews in Holy Quran

As the religion of Christians has been canceled by God as we have studied above , the religion of Jews has also been canceled. Because in this religion also is the concept of worshipping mankind as Allah says in

Surah no 9 verse no 30 And the Jews say :

“Uzair (Ezra) is the son of Allah, and the Christians say : the Masih (the Christ) is the son of Allah . That is their oral statement. They imitate the saying of the earlier disbelievers. May Allah ruin them? How far they turned back from the truth!”

Please think in this verse you will find the reason by which has canceled the religion Jews. There is no doubt that Ezra was a saint and messenger of Allah but he was not a son of God and he was from mankind and used to eat earthly food then how can we say that he is a son of God? Because it is perfect that the god does not have a body that requires earthly food to remain fresh. So our common sense says that his son also will not need to eat earthly food? Because it is necessary that God and his son (if he has) should be the same in body and in eating, drinking etc? But we see here that there are many differences between the God and messenger Ezra. I will not go into details at this time because all persons who have knowledge and wisdom will know what differences are between mankind and between the Gods. So it is certainly impossible that Ezra (peace be upon him) is a son of God.

The religions except Christians and Jews in Holy Quran

Islam prohibits the following of any religion besides Islam. Islam was the religion of Adam and Eve and will always be the only religion of the entire mankind. Because in the holy Quran it has been clearly mentioned the principles of all things not details of all things.

So when the holy Quran has said that the messenger messiah is not God or son of God because he used to eat earthly food. Then it is a principle that all those who will eat food they can not be God or son of God. So all religions that follow the worshipping of

humans or any other living or non-living thing are not even acceptable in Islam. All other religions be it Christianity or Jew religion are no substitute to the religion Islam that is the only religion of mankind.

No doubt that in religion Islam is respect of all those mankind who are saint and loved to Allah as all messengers from first man Adam to last messenger of Allah Muhammad that they are very respectful and they were gifted the spiritual power and miracles from almighty Allah .But even after all this they are not God or a son of God.

The concept of God in religion Islam

The concept of God in Islam is mentioned briefly in

Surah no 112 please study it naturally. Allah says:

“say: The truth is that Allah One, Allah is besought of all, needing none. He neither begot anyone, and nor was he begotten. And equal to Him never been any one.”

My non Muslim brothers and sisters this is the introduction of Allah very shortly. But I want to describe some details in light of the Holy Quran. But I want to describe the religion of Islam in the light of the Holy Quran.

Allah is one and he has no partner. He has been forever, even before this world came into existence and even when everything will vanish he will still be there. His existence is free from all human necessities. He is the creator of this universe; he created mankind from mud, demons from fire and angels from light. He has created life within a life and is the creator of everything in this universe. This knowledge is unlimited. No one can possess these characteristics and therefore we should only worship Allah, as he is the creator of everything and is our LORD. And worship of any other living or non-living thing is forbidden in Islam. It is forbidden to worship anyone besides Allah and also to associate someone with him. He is free from any relations and worldly needs. I pray to Allah that he leads us all to the right path and also to give us enough Common sense that we start to judge what is right and wrong. I think that no one can say that this introduction is fit for any one from mankind nor angels nor demons? So it is right for Allah that he should be worshiped only and it is right that all religions in which the concept of worshipping to any one except Allah is wrong or canceled.

It is very strange that we say about anybody that he is a God or son of God and say about him also that he uses the eating things because then we will accept that he has to go to discharge the food too? I think it is very bad to insult him. Therefore Almighty Allah

has canceled all religions in which the concept of worshipping mankind nor angels nor demons etc. I pray to Allah that he give his guidance and common science to all persons. Amen.

The story of two protected dead bodies

In the book of Urdu language named Jahan-e-deedah published by Edaratul maarif Jamia Darul Uloom Korangi Karachi Pakistan and written by the former Chief Justice Shariah Court and famous Muslim scholar in the World respected Moulana Muhammad Taqi Usmani has mentioned on page 56 the stories of two dead bodies of companions of The Holy Prophet Muhammad (peace be upon him) .one is Hozefah son of Yaman (R.A.) and second is Abdullah son of Jabir (R.A.). This story was published in newspapers in The World. For details Please see that book.

In that book are other two companion's dead body stories also and I also have the records of many true Muslim, s protected dead bodies but I do not like to go into details at this time. If I need to mention all details or public demand then I will mention in this that dead bodies are recorded with details in this document by the mercy of Allah. So I am mentioning this time only one story of two dead bodies of companions.

In 1929 the king of the government of Iraq saw in his dream again and again these two companions informing him that water was reaching their graves. The king asked the religious Muslim scholars to open their graves to research that information.

Those Muslim scholars allowed him to open their graves. Then the king announced that the graves of two companions of last prophet Muhammad (peace be upon him) will be opened and transferred to Mosque Salman (R.A.) and he fixed the date for it. At that date their graves opened while there were millions Muslims and non-Muslims to see this event. The government had arranged cameras for the people who could see this event easily by screens. It is very wonderful that when they opened their graves their dead bodies were protected and their shroud were also protected.

A non-Muslim eye specialist said that their eyesight is as the light of a living person and he entered in religion Islam at that time and many other non-Muslims also entered in Islam. Because it was a miracle and an eye witness that religion Islam is really truthful and loved by Allah the Creator and can not be any proof more powerful than this event and no anybody could deny it. So they entered in Islam.

There are many canceled religions

Because there are many canceled religions in the World and all its followers' opponents that their religion is only right and loved by Allah. In this situation the public is confused. Because they know that the truthful and right religion can be only one. The reason for this is that Allah is surely one because there is no partition in the sky, sun, moon, stars, earth etc and systems of this universe. If there was any other God besides Allah then they would have been a partnership among all things in the Universe. But there is no partnership so Allah is only one really and then it should be also that his loved and understood religion should be only one too.

Allah has forbidden the worshiping of any other God and the practice of any other religion other than Islam. Many battles have taken place amongst people in the past based on the conflict of which religion is the best. Therefore Allah has ordered all mankind to follow the religion Islam.

So reality is that the right and understood religion should be only one and that is the religion Islam only which is the basis is Holy Quran.

Religions before the completed Islam

According teaches of the Holy Quran starting of religion Islam is from first prophet and first man Adam (peace be upon him) as it said in

Surah no 3 verse no 33, 34:

"Verily, Allah has chosen, Adam and Nuh (Noah) and the family of Ibrahim and the family of Imran over all the worlds a progeny some of whom resembles the others (in faith). Allah is all-hearer, all- knower"

There is no doubt about it that the prophet Ibrahim was pure Muslim as it said in Surah no 3 verse no 67:

"Ibrahim was neither a Jew, nor a Christian, but he was upright a Muslim, and was not one of those who associate partners with Allah."

So we can say that the first prophet Adam was also Muslim and follower to religion Islam because Adam, Nuh, Ibrahim, and his family were preferred. So I have said above that the starting of religion Islam is from Adam (peace be upon him) to Isa (son of Maryam peace be upon him) but the religion Islam was yet incomplete. It completed by last prophet Muhammad son of Abdullah as Holy Quran says in Surah no 5 verse no 3: "Today, I have perfected your religion for you, and have completed my blessing upon you, and chosen Islam as Deen (religion and a way of life) for you."

So religions before the complete Islam were incomplete and for a limited period because the teaching of Islam revealed to prophets slowly in parts that mankind can obey it. So it will be said that religions before the Islam were incomplete and were completed by the last prophet Muhammad (peace be upon him). For example a child when he was born his dress will be prepared to size his body. His body will progress slowly and after five years his body will not be able to wear that childhood dress so his dress also will be as long as his body. After passing a long period his body will not progress and will stay on a limited length. At that time his dress size also will be fixed and he will not need to change the dress size because the body has completed.

Like the body the religion Islam was as a child at the time of holy prophet Adam (peace be upon him) and its teachings also were shorts and incomplete. At the time of holy prophet Muhammad (peace be upon him) it became a complete youth and it also completed and canceled all religions before the Islam. So Allah the greatest said now I have completed Islam as mentioned above.

So when we strengthen our faith in Allah and his religion and the teachings of the Holy Quran, He enlightens our soul and does what is best for us as he is the creator of this universe and knows what is the best thing.

There is only one way for peace in this world

The only way for peace in this world and success after death (in another world) for jinn and mankind is to accept the religion which is loved by Allah the Creator. Because when mankind and jinn will not obey to Allah he will not give his pleasure and peace and then we will be in troubles and agony in this world and hereafter too.

There is a question: how will we obey Allah?

The answer to this question is very simple: Allah has said to us in his verses that religion Islam is right and loving religion to him. So when we enter in the Islam and follow it Allah will give us his pleasure and happiness. Without it, it is impossible that peace will be in the world forever. And the proofs that religion Islam is the only right and loved religion to Allah is challenge of the holy Quran since fourteen hundred years to all mankind and jinn and every one beside Allah to create a Surah like the holy Quran but they could not do so as yet and second proof is protected dead bodies of millions truthful Martyrs of religion Islam and other Muslims in their graves under the earth in fresh and sleeping condition without use any chemical on their dead bodies since

centuries and years.

This is the greatest proof of the truth of religion Islam because the earth has no capacity to protect any dead body. So this event indicates to us that it is all from Allah the Creator that we can judge about Islam that it is a right and truthful religion surely. So all mankind should enter in Islam so that Allah the Creator can give us peace in this world and protect us in the graves under the earth too.

An advice to United Nations

According to my research, the reality is that all dreadful and dangerous wars that have happened between countries were religious wars and at this time also these religious wars are continuing in the world but if I say that in future also these religious wars will continue it will be not wrong.

So I give an advice to united nations that if you like to save the world from destruction of wars please establish a religious united nations also (and it is easy to you) which duty will be research the right and truthful religion near to Allah among various religions because the creator of this world is only one because the system of this world is also only one from forever. So our common sense and knowledge says that it is perfect also that the rightful religion should be also only one. After research that only one rightful religion please inform all mankind in the world by the electronic and print media that all mankind can satisfy that religion and accept that and by this way we can secure the world from the dangerous wars.

The way of research

The way of research by that religious United Nations is that you will take at least 10 expert religious persons from all religions and they will give hundred percent truthful and undeniable proofs about any one religion that it is rightful, loved, and perfected religion near to Almighty Allah. And then the proof of that religion will be produced in front of all mankind in this world by the electronic and print media and the public would be asked questions about that religion and also they would be given a chance to give their opinion about that religion too. I think that this way is very easy for peace in this world and success after death too. Without it, it is impossible because according to my research the reason for all wars is only deference among the right and canceled religions. So when we will not end this religious deference from the world, you will not succeed in making the world peaceful. So I request you to use your sources and power to serve mankind and save the world from destruction. If you do so, the creator of this universe and creatures will be very happy with you and will give you His pleasure

hereafter also when your (and all persons also) eyes will be closed forever and then you will be alone under or anywhere. So please do this so that mankind will remember you in their prayers forever. If you succeeded in establishing a religious united nation and researched the rightful religion you and your team will be alive forever and I the world will be very thankful to you.

Because there is not any work that is important in my thinking but you will agree also if you think alone about the situation of the world after ten years and see the situation of this time. Do you not know that there are many bombs made in the world? And do you not know that all things will be made and will be used surely? Then think if the wars began in the world then what would you do? At last I say to you that if you did not act on my advice then your United Nations will remember me when the world will full from the worst situations and I will not be in the world at that time.

The thinking of big bang is not right

During the research it will be possible that your research team will find that there are some persons whose belief is that there is no God or Lord or Almighty Allah and this universe came into existence by itself without any creator by the sudden thud.

According to my research , this is not right for many reasons. The first is that they have not any undeniable proof of their belief and thinking. They have said only by their mind and their guise and it is not necessary that their guise only without any proof will be right while I have a practical, undeniable and reliable proof with eyewitness that there is a any one who have super power and who created this universe, and all things of this universe obey to Him and a majority of the mankind worship to Him. We call Him by the name of God, or Lord or Allah greatest.

The proof of it is the protected dead bodies of those Martyrs (who were slain in the way of religion Islam) and other true millions Muslims in their graves under the earth without using any chemical on their dead bodies in fresh and sleeping conditions for centuries and years. These protected dead bodies are practical proof because we can practice that we will choose 100 persons from the Muslims and we will give their names, their fathers name with their address so that the United Nations can watch them.

It is certain that after their death they will be hidden in their graves under the earth. After passing the three months when you will check their dead bodies by machine you will find some of them that they have protected. Then It will be practical proof of being the creator of this universe because it is perfect in every one that the earth has no capacity to protect them, there was no any machine for that purpose, and not used any chemical on their dead bodies also then how do they become protected? It will be necessary in

this situation that we can say that there is any one who is powerful and He protected their dead bodies? Surely it is right and we call Him by the name of God, Lord, and Allah greatest. So my research is practical, reliable and undeniable and by this proof I say that their belief is not right.

I have eyewitness proof also that there are thousands persons who have seen the protected dead bodies of Martyrs of religion Islam and other true Muslims in their graves with their eyes but some of them they entered in their graves and touched by their hands to their dead bodies. They found their dead bodies in fresh and sleeping condition like the living persons. So our proof is an eye witness and proves that there is a God and the earths also obey Him.

The belief of big bang and thinking is not right because the followers of this thinking are only in a group while those who have believe that there is a God who created this universe are in majority so the belief of majority will be accepted and the believe of a group will be rejected according the role of world and commonsense too. I think it is enough to reject the belief of the big bang.

BIG BANG BUSTED!

Where Did Everything Come From?

What is the proof?

Source: <http://www.scienceislam.com/bigbang.php>

Islam tells us Allah is both The Creator & The Evolver, of all that exists. We know *Allah did not evolve us from monkeys*, and we know all things are from Allah. Please share this information with those who deny the existence of God. They need it.

There is a popular theory referred to as the 'Big Bang' theory. It tries to explain the existence of the universe in an evolutionary manner having an initial beginning with an immense explosion of some gasses or solid mass. Some say there first was a void or 'nothingness', or perhaps, some gasses which exploded then from this everything in the universe simply began to evolve to the stage that we see now. There has never really been any solid evidence for this idea of the 'something out of nothing' concept. Nor for that matter, the evolutionary theory itself.

We would like to explore the idea of creation from a purely logical standpoint using simple terminology without religious hype, emotional pre-convictions or superstitions.

What if someone called a 'scientist' tells you his 'theory' of how cars are made is like this:

A salvage yard on the south side of town blows up and all the metal pieces fly into the air and fall back down in one place forming a brand new Chevrolet Caprice automobile.. with no left over parts.. and the motor is running..

Or what if his theory for how a chair is made is:

An explosion occurs in a forest and the trees go flying into the air and then suddenly they combine with some flying cloth to make a beautiful chair... and then it lands in a furniture showroom complete with matching table and lamp...

He further explains that:

An earthquake in California\ 's '\Silicon Valley\' causes the computer chips and circuit boards and other various parts to fall out of their boxes and off of their shelves and just come in place together as they are rolling around on the floor and form the most advanced technical computers existing on the earth?...

Or what of his 'Medicine Theory'? He now claims that:

A gas leak in a pharmacy warehouse causes a terrific explosion. All the different chemicals and substances just smash into each other in exactly the correct amounts to produce a miracle drug which cures everything from cancer to heart and liver disease, old age and warts?...

Wait... there's more to this one:

It is all in one formula, packaged in the bottles with labels and ready to sell with no mess left on the floor?...

Now after all this exploding and excitement this 'scientist' tells you of a great place to relax and have something to eat. It is his favorite place and he calls it: "Burger Blast"! He says:

You just go in and sit down and suddenly a 'blast' from the kitchen occurs and immediately a burger lands right in front of you with all the trimmings.. just the way you like it complete with fries, a drink and even your favorite dessert?...

AND...

No one works at \"Burger Blast\", it just runs itself, automatically cleaning itself and as you leave it scans your billfold for a valid credit card and charges your bank account for what you have eaten?...

Now the question is: *\"Are you really going to accept any of this as 'fact'?\">*

Of course not!

We wouldn't believe a new car is made from flying junk; chairs don't fall down from exploding trees; earthquakes do not produce computers and blasting burgers don't rain down on us from above.

Question: So how come we don't challenge a theory of something coming from nothing and then colliding in the cosmos to make the universe? Is it because of its tremendous magnitude that we have so little comprehension about it, that we are willing to accept any theory from a few telescopes 'peeping Toms' to tell us that it came from 'nothingness'? Or just some gasses colliding and then... 'Poof'!? Instant Universe? How?

There are 2 questions from me to the all Non-Muslims of the world

From the beginning of revelation of Holy Quran on last holy prophet Muhammad (peace be upon him) there were many peoples who were in doubt about the Holy Quran and according my knowledge (until 2009) also there are 75% of mankind Non-Muslims probably in the world, and they have doubt about the Islamic religious book Holy Quran that this book is surely the verses of God (who is only one and has created this universe) or has fabricated by anyone?

The proof of it is that if they have no doubt about this book and they have faith that this Holy book is surely the verses of Almighty Allah then why do they not accept it by their saying? And why do they not accept the beliefs of this book? And why do they not follow the teachings of this book? But I have proof that they have hate from this Holy Book and its followers? So it has declared that they have doubts about the Holy Quran that this is the book of Almighty Allah or has it been fabricated by anyone? Therefore Allah had mentioned also their doubt and way for ending their doubt from their mind (because He loves His creatures 70% more than mother of everyone) and after that He threatened to

those disbelievers who will not end their doubt from their mind, and will not accept the Holy Quran's verses of Almighty Allah (means will not enter in religion Islam) to the fire after their death prepared for them and which fuel is of men and stones as it has mentioned in Surah no 2 verse no 23,24 "And if you are in doubt about what We have revealed to Our servant, (Muhammad) then bring a Surah similar to this, and do call your supporters other than Allah, if you are true. But if you do not-and you will never be able to-then guard yourselves against the fire, the fuel of which will be men and stones. It has been prepared for disbelievers."

Please think in this verse that Allah Almighty says to the disbelievers and think in what I have said in detail in the light of other verses of Holy Quran you will find all that right by the mercy of Almighty Allah. Please study the details of this challenge if you like in my website www.rightfulreligion.com.

So there are two questions from me to all Non-Muslims of the world.

The first is that Allah has been challenging in the Holy Quran since fourteen hundred years (since the time of holy prophet Muhammad) until this time and this challenge is forever that if the disbelievers or Non-Muslims have doubt about this holy book then they bring a Surah in Arabic language fabricated who contains at least on ten words and not be copy of any complete Surah of this book in words and meanings. The question is why they could not bring a Surah in Arabic language fabricated from any one (beside the God)? While this challenge has been coming in the holy Quran since fourteen hundred years until this time and this challenge is forever too?

And while there were a majority of them who wanted to end the religion Islam from the world? And while this time also they hate this holy book and some of them dishonor it too? And while they are rich and they can learn the Arabic language, which is the language of this holy book that they can answer its challenge and bring a fabricated Surah? And while they can hire millions of Arabian scholars who are experts in Arabic language and whose mother language is the language of the holy Quran? And while some of them are very intelligent that they have made the dangerous bombs, they have created the modern technologies and other wonderful things, they reached on the moon, they are called super power, they have control on the world, then after it all why they do no create a Surah at least in ten words in Arabic language like the Holy Quran at this time and why they could not do so in past also before the fourteen hundred years?

I want to answer this Question from all Non-Muslims of the world because this is the easy way to end the religion Islam and Muslims from the world forever because the basis of this religion is the Holy Quran. And is there an easy way to defeat terrorist

groups like the Taliban, Alqaidah and other groups who are the enemies of the Non-Muslims? But after it all I challenge that they all will never answer the challenge of the Holy Quran. If they did so then it is an easy way to end the religion Islam from the world and then they would save the much more money which they spend in preparing the wars against Islam and Muslims?

If they will succeed in being a Surah like the Holy Quran then I and other Muslims also will be Non-Muslim and if they will not succeed in being a Surah like the Holy Quran then they should enter in religion Islam and become Muslims too.

The second question from me for them is that there are millions protected dead bodies of Muslim Martyrs (who were slain in the way of Almighty Allah) and other true Muslims also in their graves under the earth in fresh and sleeping condition without use any chemical on their dead bodies in cemeteries of Muslims in Muslim countries and in Non-Muslim countries also since the centuries and years but why the any dead body of any Non-Muslim has not protected in his grave under the earth in fresh and sleeping condition without use any chemical on his dead body in cemeteries of Christians, Jews, and other Non-Muslims in any country of world?

If I could not prove what I have said about the protected dead bodies of Muslims in above I will be Non-Muslim and if they could not prove any protected dead body of Non-Muslim as I have said in above then they should enter into religion Islam and become Muslims.

My Non-Muslim brothers and sisters if you have any protected dead body of any one from you as I have said in above then invite us, we will go in a group maximum of ten persons to research that. If we will find any protected dead body from you as I have said in above we will be Non-Muslims at that time and we will announce by the electronic and print media also that the religion Islam is not the rightful religion.

And if you want to research what I have said about the protected dead bodies of Muslims then come to us we will prove you but we will show you the protected dead bodies of Muslims by opening their graves. If you will be satisfied by eyewitnesses and by touching the protected dead body with your hands then you will enter in religion Islam and you will announce by the electronic and print media that the religion Islam is a rightful religion and except it all religions are canceled and changed by mankind.

Why I have said that I will be Non-Muslim if I could not prove what I have said above about the protected dead bodies of Muslims because these are already in the Holy Quran and I have described with details in my web www.rightfulreligion.com.

So I am sure that what it said in the Holy Quran is right because I have practiced all the sayings of this holy book. There is no time to go into details about how I knew the truthfulness of the Holy Quran and how I practiced it?

Now I am waiting to see who is brave enough to answer my two questions. And who is keen to know the reality of rightful religion? And who wants to seek the pleasure of God? And who wants to succeed in this second life after his death?

There are two questions from me to all Muslims of the world.

The one is if they are sure that the Holy Quran is verses of Almighty Allah and what is said in it is useful for Muslims then why they do not pass their lives according its teaches because there are a majority of corrupt and bad character Muslims and if they have doubt anything about this Holy book then why they do not bring a Surah like the Holy Quran?

The second Question is that according my research there are millions protected dead bodies of Martyrs (who are slain in the way of greatest Allah) and other true Muslims in their graves under the earth in fresh and sleeping condition without use any chemical on their dead bodies in Muslim cemeteries in countries of world since centuries and years but why there are a majority of Muslims that their dead bodies are not protected in earth?

Please think about it deeply and find out about it. It will be very useful for you in this world and hereafter too.

The true events of protected dead bodies of Muslims

Please refer to our [Life After Death: Fresh Dead Bodies](#) book for all events of protected dead bodies of True Muslims and Muslim Martyrs.

The undeniable proofs of religion Islam

One of the undeniable proofs of religion Islam is the protected dead bodies of many true Muslims on earth for centuries. I want to go into detailed conversations with questions and answers on protected dead bodies of many Muslims on earth. Please study it as a neutral person free from jealousy and think to find the reality because it will be useful for you in this world and after death too. It is a reality that nobody will help you or support you when your eyes will be closed forever. So be sure that you accept, Islam as a supporter and helper for your dead body and your soul also.

After a short briefing now I am going into details by asking questions and answers on protected dead bodies of many truthful Muslims on earth for centuries.

Questions and Answers

General Questions

Is the Earth able to protect the dead bodies of Mankind, animals and birds in itself for centuries without use of any chemical on the dead bodies?

It is usually impossible but the practical observation is that these bodies decay on earth in some weeks only.

But there are hundred percent truthful examples of thousands of protected dead bodies of truthful Muslims on Earth since centuries and in these days also many protected dead bodies of Muslims found as in my records prove that. Then how can you say that Earth is not able to protect the dead bodies in itself?

It is a reality that earth is not able to protect the dead bodies of Mankind animals and birds in itself but the dead bodies of thousands Muslims are protected in it only by the order of God and his pleasure .

Then why did God not order the Earth to protect the dead bodies of those who are disbelievers or non Muslims?

Because God is not happy and agrees with them and their religions are wrong near to God as it is mentioned in Surah no 3 verse no 19 in holy Quran and in above conversation too .

I think that this answer is not right for two reasons. The first is that there is a majority of Muslims and believers whose dead bodies are not protected on Earth and second is that there is a majority of non Muslims or disbelievers who are in the best condition in the world. So how can you say that God is not happy and pleased with them?

My answer is right because God is not happy from those Muslims majority who are Muslims by the name only and do not pass their lives according to the holy Quran which is verses of God really so God did not order to protect their dead bodies.

And being the non Muslims in best condition in world is not a proof that Allah is happy from them and their religions because Allah did not say in his verses holy Quran that he will not give the wealth in his world but he said that whose seek as religion other then

the Islam it will not be accepted from him and he will be loser in the hereafter so do not go to any poverty or wealth but see the right and really proof.

Why did God or Allah not order the Earth to protect the dead bodies of animals and birds in it while these bodies are also like the bodies of mankind in having blood and flesh?

These bodies do not have the wisdom to believe in the holy Quran and pass their lives according to the guidance of this holy book which is already the guidance of God. So Allah did not do so.

How have you said that the dead bodies of non Muslims will be not protected while the dead body of pharaoh is protected as yet while he was non Muslim and against the messenger of Allah moose (peace be upon him) as it is mentioned in Holy Quran and in Islamic history?

No doubt that his dead body is protected as yet and it is mentioned in the Holy Quran but it is not to respect him and sign that he was a loving person near Allah but it is really disgrace for him and warning for all wrongdoers and disbelievers forever . Please think in this verse no 91, 92 Surah no 10 you will agree with my answer as Allah says: what, now when hitherto thou hast rebelled and been of the wrongdoers?

So this day we save thee in thy body that thou mayst be a portent for those after thee. And lo most of mankind are heedless of our portents.

Questions from Non-Muslims

I accept that religion Islam is the right religion to Allah by these undeniable proofs you have mentioned above but I do not like to enter Islam because the religious condition of many Muslims is very bad in the world?

My dear brothers, if Allah will ask you why you did not enter in Islam while you knew that it was right and loved me then what will you answer? If you say that many Muslims were not acting according to the orders of Islam? Allah will say it is right so I will punish them but you will be punished also that you also did not obey me then what will you answer? So if you are satisfied with Islam you should enter it without any reason.

How will we enter in Islam when there are many religious parties?

Yes it is right but you will not enter in any Islamic religious party but you will enter in Islam and you will be only Muslim and you will act on what is necessary in Islam not on where there are differences or misunderstandings.

What is the way to enter Islam?

It is very easy that you will contact any Islamic scholar in your country or city or go to any Islamic school or mosque where you will be guided for this for free.

After accepting Islam what will we do?

Firstly you will be in contact with any expert Islamic scholar for learning the teachings of Islam and secondly you will act on what you will learn for example paying the Salah five times in a day and adopt yourself from what is forbidden in it. Thirdly, if you would like to show the teachings of Islam to others it depends on you and if you will feel any trouble in it then hide it. Fourthly there is no pressure from Islam in any situation so do what will be easy for you. Fifthly, it is not necessary to migrate to any place but do what you like.
